## PATRIOTS FIRED

By Expansion and the Grand Destiny of Our Country,

WILL GIVE 85,000 IOWA

Majority for McKinley, Says Con-Congressman Hepburn — Nebraska is Falling in Line and With a Few Years' Growth Will be a Reliable Republican State.

CHICAGO, Aug. 28.-Colonel W. P. Hepburn, representative in Congress from Iowa, chairman of the house committee on inter-state commerce and one of the brightest men in public life, has just returned from an extensive tour through his own and adjoining states. Colonel Hepburn informs the men in charge of the national and Congress campaigns that conditions are extreme ly favorable in Iowa, and Nebraska, and predicts a McKinley majority in the former state of 1000. He talks interestingly about affairs in his part of the country.

Fair Illustration.

"My own district," he says, "fairly illustrates conditions in the whole of lowa and, in a somewhat modified form, in Nebraska. My district is 120 miles in length and you can walk from fields of corn. The farmers of the dis-trict are rich. The crops of the last trict are rich. The crops of the last four years have enabled them to pay off their debts and lay up money. The banks in my own country which has a population of possibly 50,000, are carrying farmers' deposits of \$1,500,000. Such conditions as these are destructive of Populism. Four years ago we politicians thought we had the district canvassed thoroughly, yet the returns showed that we were entirely at sea in regard to the intentions' of not less than 4,000 voters. Men came to our meetings, listened to our speeches, regard to the intentions of not less than 4,000 voters. Men came to our meetings, listened to our speeches, marched in our processions and were apparently with us, yet on election day they voted for Bryan because of their terror of the gold standard. They were in fear lest the indorsement of gold would make hard times harder. They were under the harrow at the time and suffering keenly from a series of years. were under the harrow at the time and suffering keenly from a series of vears of depression, which, as we now know, had done their worst. They thought they saw relief in the free colinage of silver and voted that way. McKinley's majority in the district was 250. My majority for Congress was about 1,200. Two. years later my majority over three candidates was about 2,500. I am not counting my chickens before they are hatched, but feel confident that my majority this year will be as great as if not greater than it was in 1898.

Returning to the Fold. Returning to the Fold.

"I am positive that practically all of hose 4,000 Republicans in my district who voted for free silver four years ago, will vote the straight Republican icket in November next. Their own experience and observation has convenied them that they were wrong in their conclusions on the money question. They have seen times improve and boundless prosperity take the place of depression and suffering, under the enforcement of a policy which they were told meant universal ruin for the farmers of the country. They have seen the production of gold increase enormously and give the nations of the world all the monetary expansion the demands of trade- and labor required. They have seen the non-fuifillment of the calamity phopheses of four years ago and will follow the dictates of their own common sense and good judgment. They have four years of facts to go on and existing good times, whereas four years, ago, it was theory. Then they took counsel of their fears and listened to the preachings of teachers who armises? ago, will vote the straight Republican to the preachings of teachers who ar

to the preachings of teachers who argued from wrong premises."

"What is true of my own district applies with equal force to every district in the state of lowa. Timely rains, bright sunshine and seasons uneveed by calamities kill Populism. That is what's the matter in Kansas and Nebraska, as well as in lowa and the western states generally.

Colonel Hepburn was asked to tell wherein there is a difference between Nebraska and lowa, and why Nebraska should cling so to Populism while lowa cast it off and turned from it.

Difference Between States.

Difference Between States. "The difference between the two states," replied Colonel Hepburn, "is mainly that of the difference in the time of settling the two states. Iowa is the older of the two and the average condition of the people is therefore bet-fer. Nebruska, I should say, is ten to fifteen years behind lows, if I may be allowed to measure the difference be-tween them in years. Conditions which prevail now in Nebraska prevailed ten to fifteen years ago in Iowa. The sit-uation as we now find it in the Hawk-eye State represents just about that untion as we now find it in the Hawkeye State represents just about that
number of years of development and
progress. Every new section has to go
through a sweat before it gets a firm
footing and is able to stand on its own
legs and think and act without prejudice. Every new state has gone through
the process and worked to political as
well as material solvency. I have been
telling my friends at headquarters that
they are borrowing unnecessary alarm
over what they seem to regard as
apathy' among the masses of voters.
They will find on election day that the
voters will be on hand and that a vast
majority of them will cast their bailots the right way. The people have
made un'their minds and do not see the
necessity of becoming excited."

Appeals to Patriotism.

Appeals to Patriotism. Colonel Hepburn, who has made to number of speeches already, was asked what theme made the greatest hit

ed what theme made the greatest hit. His reply was:

"I have talked imperialism openly and above board, and I find that nothing I said aroused such magnificent enthusiasm as appeals to the patriotism of the people. They believe in the grand deatiny of the nation and in its expansion and development in every direction. They have seen the United States take its place in the front rank of nations and want to see it grow in importance and power. Since the days of '61-65 there has never been a time when there was so much to go on as now to fire patriotic impulses of American men, We are entering upon a new era in the growth of the nation, and it is cowardly to hold back. I find that the idea of giving up the fruits of war and of surrendering any of the rights of the territory and the advantages bought with the blood of our solidiers and with national treasure is exceedingly repulsive to the great mass of intelligent: Americans. They might have gone into the war with reluctance, but once in and the war over, they have no disposition to give up its fruits, and anybody who—thinks differently makes a mistake. There is no sincerity nor depth to the so-called anti-imperialistic hubbub. That issue was given life, or an appearance of life, solely in the hope of catching a small element of the foreign vote in close states. It is a dismal failure even from that standpoint, although, to the credit of the Democrate, it must be said of them that they are playing the string out along the lines laid down by their lead-cr." His reply was:

NO household is complete without a case of Cook's Imperial Extra Dry Champagne. It's the best sparkling wine made.

#### TAMMANY VICTORIOUS

In the New York Primaries-Re publican Organization Also Carries the Day.

NEW YORK, August 29.—Full returns from yesterday's primaries in Greater New York show that the New York county Republican organization and second to the county Republican organization and second the second to the county Republicant of the county Republicant organization and second the county Republicant organization and second to the county Republicant organization and second to the county Republicant organization and the county Republicant o New York county Republican organ-lization was successful in all except the Twenty-first assembly district, where Abraham Gruber, who opposes the county committee was successful. Tammany Hall was successful in holding control of the Democratic organi-zation in all districts. John C. Shee-han failed to recapture the leadership of the Ninth district from Frank Goodvin, who had the support of Richar Croker, In the Seventh district Jam .

W. Boyle was defeated by Richard Keahon. This contest was carried on inside the organization, but it was generally understood that Mr. Croker

favored Boyle. favored Boyle.

In Brooklyn (Kings county) the regular organization won, except in the
Sixteenth assembly district, where the
present Republican leader, Assistant
Postmaster William J. Taylor, was
beaten by Naval Officer Robert Sharkey. Michael J. Dady retained the
leadership of the First district.

On the Democratic side, Hurb Mo-

leadership of the First district.

On the Democratic side, Hugh Me-Laughlin won in all districts, and will have a solid delegation of sixty-three in the state convention. The candi-dacy of Bird S. Coler for governor did not figure in the Brooklyn primaries.

#### ALABAMA SPEEDY.

Her Trial Trip Indicates That She is Inferior to No American Battleship-Kearsarge Accepted.

WASHINGTON, August 29.-The navy department has received an official vy department has received an omena telegram confirming the press reports of the successful speed trial of the Al-abuma. A dispatch to the department from Admiral Rodgers said that the Alabama had made an average of 17 knots.

The easy manner in which the Alabama exceeded her contract speed by a full knot leads the department to believe that driven at her full capacity she might exceed her trial speed by a considerable fraction. There was no speed premium paid on the Alabama, and her builders probably felt that it was useless to force her to the utmost limit at the risk of probable mishap to the machinery. The Iowa, which is the only battleship so far that has exceeded the speed of the Alabama, made 17.04 knots and the speed premium paid on her by the department amounted to \$217,420.

The navy department to-day finally accepted the battleship Kearsarge, which has been in commission for some months. This will not the builders \$60,000, her tofore held back.

#### Another Anarchist Arrested.

BUDA PESTH, August 29. — Guis-seppe Tomazo, a Venetian, who is be-lieved to have been an accomplice of Luigi Lucheni in the assassination of Empress Elizabeth of Austria, has been arrested here. He was seen with Lucheni shortly before the as-sassination, but disappeared. He has been living here under the name of Josef Gres.

Dr. Agnew's Catarrhal Powder. Dr. Agnew's Catarrhal Powder.— Rev. W. M. Main, pastor of the Baptist Emanuel Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He had tried many kinds of remedies with-out avail. "After using Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonder-ful remedy. It relieves instantly. Sold by Charles R. Goetze, Twelfth and Market street,—18.

#### FINANCE AND TRADE.

The Features of the Money and Stock

Markets. NEW YORK, August 29 .- Money on call easy at 14@14 per cent. Prime mercantile paper, 4@4½ per cent. Sterling exchange firmer, with actual business in bankers' bills at \$4 871/2@4 87% for demand at \$4.84 for sixty days, Posted rates, \$4 85@4 88½. Commercial bills, \$4 83@4 83½. Bar Silver certificates, silver, 61%c. 61%@62%c; Mexican dollars, 48%. Government bonds strong. State bonds in-

active. Railroad bonds irregular. interest to-day which gave an appearance of greater animation to the stock market than it has shown for two weeks past. The strength centered in the steel croup for the greater part of the flay, but in the later dealings it extended throughout the list. The list of active stocks was not a long one, but such as were dealt in show quite uniform gains, extending to nearly a point or over that in many cases. The gains were well held, and profit-taking made only slight inroads, the close being firm, though quiet about the top. Although the number of issues dealt in was not large, the trading was not nearly so much in a few stocks as for some time past. In the steel group the gains ranged from a point to 2 and 2% points, the latter figures in National Steel and steel and wire. This was no exception in the group to the upward tendency, which was due to the tips of the growing demand for iron and iron products of pretty much all and iron products of pretty much all grades. The progress of negotiations for the settlement of wage schedules which are in progress was probably reflected also in the movement. Generally speaking, the demand for stocks is partly ascribable to the requirement of the short interest, which was made uncasy by the check to the decrease yesterday. Their disquiet was increased by several incidents of the day. Prices received an opening impetus to an advance from the better tone of the London market, which was encouraged by the reported successes of General Roberts against the Boers. Actual buying for trade account was on a small scale. The upward course of trade discount was checked, however, and the 'hope was entertained that with the conclusion of the stock exchange settlement the money difficulties are obviated for the immediate future. The statements of railroad carnings for the day were good, including the Wabash annual report, showing a prosperous year, and the St. Paul report for July. The throat good, including the Wabash annual resport, showing a prosperous year, and the St. Paul report for July. The threat of a strike of the Anthracite coal interest did not seem to effect the market, and Erie first preferred in the group advanced 1½ per cent. The homeward course from summer vacations in Europe of a number of the influential men in Wall street movements was a sentimental influence for the advance, the room traders, who still absorb practically all the dealings, seeking to anticipate the coming operations which they suppose those men will embark upon. The conditions in the money market remain unchanged. Dealings in bonds continued duil, and the market was irregular. Total sales, par value, 41.075,000.

New York Mining Stocks. 

Breadstuffs and Provisions.

Breadstuffs and Provisions.

CHICAGO—A big cash business was the prime factor in wheat to-day, September closing %c higher than Monday, September corn closed 1½c up and oats a shade improved. Provisions were fairly stendy. Strength and activity characterized the wheat market nearly the whole session. The extellent business was the broad foundation stone on which the strength was founded. Cash sales were 700,000 bushels, and the seaboard reported 39 loads taken for export. Export clearings for to-day were 395,000 bushels. Liverpool closed % pence higher. Domestic news was but little changed—decreased southwest receipts, rather unfavorable weather in

ses,000 busnels. Liverpool closed % pence higher. Domestic news was but little changed—decreased southwest receipts, rather unfavorable western receipts, rather unfavorable western receipts. September opened at 14½c to 14½c, a range of price due to the instantaneous consideration of the foreign bullishness and the heavy local receipts. The foreigners soon got the best of it, and under a general demand, in which shorts were clamopous, the market advanced to 75½ 75½c. Having started upward, there was scarcely any reaction, and the close was strong, September 3c higher at 15675½c. Primary receipts were 1.421,000 bushels, compared with 685,000 bushels last year. Minneapolis and Duluth reported 233 cars, against 253 cars last week and 273 cars, against 253 cars last week and 273 cars a year ago. Local receipts (two days) were 976 cars, 43 of which were contract grade.

Corn was active and strong, speculation for a rise in old crop futures, owing to a scarcity of old corn, being the ruling motive, as it has been for some time past. Liverpool was up 1½ to 1½ pence, and the seaboard reported 95 loads taken for export. Cash cales here were 500,000 bushels, nearly all for foreign shipment. The shipping demand would have absorbed more than it did had holders been willing to make even slight concessions in prices. There was a further decrease in stocks, the local contract now being only 32,000 bushels, while the stocks in public and private elevators are but 1,555,000 bushels. Cash corn acceptances show some gain to-day, but were still light. Local receipts were 457 cars. September sold between 3½c and 41c, and closed 1½c up at 41c. Oats were firm, but quiet. The strength of other grains sustained the market, in the face of some liberal offerings, and a good demand was reported. Receipts were 457 cars. September sold between 13½c and 13½c. Provisions were fairly steady. The case and grace with which the market absorbed liberal offerings of lard trom commission houses was the feature in the pit. September pork sold between
